

CONTENTS

INTRODUCTION	3
Chapter 1. MODEL DESCRIPTION	5
1.1. Computation domain	5
1.2. Atmospheric transport	7
1.3. Atmospheric chemistry	10
1.4. Dry deposition	16
1.5. Wet deposition	27
1.6. Boundary and initial conditions	29
1.7. Source-receptor relationships	31
Chapter 2. INPUT INFORMATION	33
2.1. Meteorological data	33
2.2. Emission data	35
2.3. Land cover	39
2.4. Chemical reactants	41
Chapter 3. SENSITIVITY ANALYSIS	43
3.1. Meteorological variability	43
3.2. Model sensitivity to parameters and processes	46
3.3. Uncertainty due to individual parameters	49
3.4. Overall uncertainty	51
3.5. Conclusions of the sensitivity analysis	52
REFERENCES	53
Annex A. ADVECTION TESTS	59
Annex B. CALCULATION OF THE VERTICAL VELOCITY	63
Annex C. HEMISPHERIC MODEL OF HEAVY METAL POLLUTION (MSCE-HM-Hem)	65
